PROFILE

Passionate IT undergraduate with a strong interest in Full Stack Web Development and UI/UX Design. Experienced in building responsive, user-centric web applications using modern technologies across the frontend and backend. Adept at crafting clean, intuitive interfaces and translating design concepts into functional digital experiences. Eager to apply my skills and grow through an internship with a collaborative and forward-thinking team.

EDUCATION

National Diploma in Technology in Information Technology
Institute of Technology, University of Moratuwa (ITUM) (2023 to Present)

KEY PROJECTS

MOVIE FINDER (GitHub)
HTML | CSS | JavaScript | OMDb API

A simple website that lets users search movies by name, using the OMDb API to display real-time details like title, year, poster, and description.

CONFERENCE MANAGEMENT SYSTEM (GitHub)
HTML | CSS | JavaScript | Node.js | Express.js | MySQL

A system to efficiently manage conference events, enabling organizers to schedule sessions, manage speakers and registrations, while participants can view details and register online.

Cinemax.lk(GitHub)
React.js | Spring boot | MongoDB

An online Movie ticket booking platform where user can order snacks together.
